Notes for Authors

The Editorial Board gives preference to the earlier not published papers of high scientific level. Papers must meet all requirements and contain characteristic parts, i.e.: form the goal of researches, clearly describe the idea being presented, orient to the importance and uniqueness of the obtained scientific results, include appropriate references.

The Journal publishes papers in the following fields: *Electronic Measurements; System Engineering, Computer Technologies; Signal Technologies; Automation, Robotics and Control; Electronics; Microelectronics; Telecommunication Engineering; Electrical Engineering; High Frequency Technology, Microwaves.*

Authors must send to the address of the Editor two paper copies of a manuscript typed on one side of **strictly A4 format (210 x 297 mm)**, using the following margins: top – 20 mm, bottom – 25 mm, right and left – 18 mm. Also a manuscript should be **submitted electronically** AUTHOR's guarantee form, two referee reports and payment copy must be uploaded too.

The length of the manuscript should be strictly 4 or 6 pages.

Arrangement of Papers

The paper should be prepared using Microsoft Word for Windows (*.doc, *.docx). The type for text should be Times New Roman. You should arrange your contribution in the following order:

- Paper title, author's name, address of the place at which the work was carried out; the title should be short, specific and informative;

- The main text, suitably divided under headings; the text should usually follow the standard sequence of

introduction (up to 1200 characters (with spaces)), method, results and discussion. Headings and subheadings for different sections of the paper should be clearly indicated. Do not number the sections. All figures and tables should be mentioned in the text;

- Acknowledgements (if any);
- References;

- Abstracts should be approximately 700-800 characters (with spaces) and should contain the important points of the contribution placed in the context of electronics and electrical engineering.

Style of the Text

The main text is prepared in two columns (width – 84 mm, spacing – 6 mm between columns) with a single line spacing. All paragraphs begin with 7,5 mm indentation. Illustrations and tables may be arranged in one or two columns. Tables should be numbered consecutively in Arabic numerals given a suitable caption and titled. All table columns should have an explanatory heading. Tables should not duplicate results presented elsewhere in the manuscript, e.g. in graphs.

Equations should be numbered consecutively with Arabic numerals in parentheses on the right hand side of the columns. The formulas should be prepared using "Microsoft Equation" or "MathType" editor. The spacing between main text and formulas – 6 mm.

The example of formula:

$$E_v(t_1 \div t_2) = \frac{\int_{t_1}^{t_2} E(t) dt}{t_2 - t_1} \quad (1)$$

Table 1. Requirements for the formulas

Elements of the formulas	Font size	Font style	Type
Text	10 pt	Normal	Times New Roman
Functions	10 pt	Normal	Times New Roman
Variables	10 pt	Normal	Symbol, Italic
L.C.Greek	8 pt	Normal	Symbol, Italic
U.C.Greek	10 pt	Normal	Symbol, Italic

Elements of the formulas	Font size	Font style	Type
Symbols	12 pt	-	Symbol
Subsymbols	10 pt	-	Symbol
Vectors and matrices	10 pt	Bold	Times New Roman
Subscript/Superscript	8 pt	Normal	
Sub- Subscript/Superscript	7 pt	Normal	

Table 2. Requirements for the text

Pattern of the text	Font size	Font style and type
Title	16 pt	Times New Roman, Bold
Author	14 pt	Times New Roman, Bold
Organization	10 pt	Times New Roman, Italic
Headings of sections	10 pt	Times New Roman, Bold
Main text	10 pt	Times New Roman, Normal
Headings of tables and illustrations	9 pt	Times New Roman, Bold
References	9 pt	Times New Roman
Abstracts	9 pt	Times New Roman

References

In the text, indicate references to the literature by superior Arabic numerals which run consecutively through the paper.
